

Poo-Poo Project Partners

As of 12.14.17

In 2010, Teton Raptor Center (TRC) a nonprofit raptor education, research and rehabilitation organization located in Jackson Hole, Wyoming, initiated a community-driven project to install 100 'rock' screens on the ventilation pipes of vault toilets throughout Grand Teton National Park, and Shoshone, Bridger-Teton and Caribou-Targhee National Forests. In 2013, TRC's Poo-Poo Project developed its own screen to prevent wildlife entrapment on a national scale. Poo-Poo Screens are easy to install, affordable, durable and they effectively protect wildlife without compromising vault toilet pipe ventilation. TRC has distributed **10,722 Poo-Poo Screens** to **378 partners throughout 50 states and the Virgin Islands**. TRC was awarded the "Wings Across the Americas Award for Habitat and Partnership" from the USDA Forest Service in recognition of the conservation impact and partnership of the Poo-poo Project. **We have already achieved our 2017 Poo-Poo Project goals of having a Poo-Poo Project in all 50 States and selling our 10,000th Poo-Poo Screen.** For More information contact Teton Raptor Center's Poo-Poo Project Coordinator David Watson at david@tetonraptorcenter.org or (307) 203-2551.
